7 hygiene line

TOPEFEKT® CONTRA

CONCENTRATE, DEEP CLEANING OF FLOORS IN SUPERMARKETS.

Low foaming, alkaline product with a wide range of applications. Recommended for deep cleaning of all heavily soiled industrial floors using cleaning machines. Does not leave streaks. Perfectly dissolves majority of polymer coatings from floors resistant to alkalis as well as removes wax and soap protective layers. Recommended for use in supermarkets and shopping malls.

WORKING SOLUTION / HOW TO USE:

- Machine washing: 0.5-2%
- Stripping of old coatings: 10-30%
- Deep cleaning: 2-5%
- Rinsing with water hinders re-soiling of floors

10L - II004A010

6 hygiene line

RUBBER OFF

CONCENTRATE, REMOVAL OF VULCANIZED RUBBER MARKS FROM FLOORS.

Concentrated product for removal of rubber and tyre marks from hard surfaces of all kinds. Perfectly dissolves scuff marks as well as adhesives, resins and waxes used by athletes.

WORKING SOLUTION / HOW TO USE:

- Works effectively in 2-30% solution. For daily cleaning use a 2-5% solution and 10-30% solution for hard to remove rubber or scuff marks
- Prepare a working solution depending on the type of dirt
- Apply onto the soiled surface
- leave for 1-2 minutes
- scrub manually or mechanically
- wipe off the dirt and rinse with water
- if needed repeat the process

20 hygiene line

TFC COATING

READY TO USE. PRESERVATION OF HARD FLOORS (STONE AND FLEXIBLE).

Self-shining acrylic emulsion for periodic preservation of hard floors - both stone and flexible. Effectively protects surfaces from damage and dirt adhesion. It has excellent filling properties and thanks to its consistency is easy to use. Gives high gloss without polishing, non-slip properties and increases resistance to scratches and disinfectants in working solutions.

WORKING SOLUTION / HOW TO USE:

- Apply three layers of coating without diluting onto a clean, neutralized and dry surface at intervals of approx. 25-30 minutes (depending on the drying time). The coating has a curing time of 6h.
- Periodic HS Polishing (800-1500 rpm) extends the durability of the coating.

1L - PP020A001
5L - PP020A005

22 hygiene line

TOPEFEKT® TOTAL

CONCENTRATE. STRIPPER - COATING REMOVAL

Alkaline agent for removal of old and damaged polymer coatings as well as deep cleaning of floors. Particularly useful for removing built-up waxes and soaps. Perfectly dissolves any coatings in a short period of time. Low-foaming, does not damage washed surfaces.

WORKING SOLUTION / HOW TO USE:

- Apply a thin layer of the product onto a clean surface with a sprayer and polish with a high speed HS polisher at 800-1500 rpm.
- Use within 10-40°C temperature range

1L - PP005A001
10L - PP005A010

19 hygiene line

TOPEFEKT® DIAM

CONCENTRATE. CLEANING AND MAINTENANCE OF SPORTS FLOORING.

An agent for cleaning and maintenance of hard floors (stone and flexible) which are either varnished or not. Low-foaming, based on wax emissions. It has anti-slip, anti-reflective and anti-static properties. It fills and renews polymer coatings. When used daily it gives a glossy effect. Does not leave streaks. It protects the floor and hinders dirt deposition. The product is suitable for polishing.

WORKING SOLUTION / HOW TO USE:

- unvarnished Floors:
- machine washing: 0.5-1%
- manual washing: 0.25-0.5%
- Varnished floors:
- manual washing: 0.25%
- does not require rinsing

1L - PP003A001
5L - PP003A005

21 hygiene line

TFC WASH CARE

CONCENTRATE. DAILY CLEANING OF HARD FLOORS (STONE AND FLEXIBLE)

Product for daily cleaning and maintenance of hard floors (stone and flexible) which were previously protected by polymer coatings (TFC COATING). Cleaning improves the quality and extends the durability of coatings. The product is low foaming, hinders dirt deposition and has antistatic and non-slip properties. Can be polished, has a pleasant floral fragrance. Does not require rinsing.

WORKING SOLUTION / HOW TO USE:

- sweep or vacuum the surface
- Prepare a 0.5% working solution
- Clean the surface frequently (machine or manually)
- for extra gloss and improved robustness the surface can be HS Polished periodically

1L - PP019A001
5L - PP019A005

#tenziacademy

Polymer coating applied to the floor hinders dirt build up making it easier to clean and maintain. Additionally, it gives an excellent gloss effect, non-slip properties and protects it from disinfectants. Its durability depends largely on the use of appropriate products for its care.

23 hygiene line
APC IN GT / APC IN
CLEANING OF INDOOR SURFACES
- ALL PURPOSE

All purpose cleaning and washing agent for heavily soiled surfaces. Removes old as well as current dirt of organic origin. Suitable for cleaning of leather surfaces (grain leather, patent leather), textiles with durable colors, plastics, wooden surfaces and laminates.

WORKING SOLUTION / HOW TO USE:

- APC IN GT (Ready to use)**
- gently apply the solution with the sprayer;
 - spread thoroughly over the entire surface, wait about 15-20 seconds, then scrub with a soft brush or sponge collect dirt, rinse with water and wipe dry;
 - textile surfaces - suck up the dirt, rinse the surface with a vacuum washer.

- APC IN (Concentrate)**
- prepare a suitable working solution - 10% cleaning leather / wooden surfaces; 20% - stain removal / deep cleaning; 5% - cleaning of textile surfaces; 2% cleaning of plastics / laminates.
 - apply with a sprayer onto the surface to be cleaned
 - wait 15-20 sec. and scrub with a soft brush or sponge
 - rinse with water or wipe several times with a clean, wet cloth.

GLASS QUARTZ

CLEANING AND PROTECTION
OF GLASS SURFACES

Product for washing, protecting and maintenance of glass surfaces on the outside and inside of buildings (glass, mirrors, partitions, glazing, shop windows, etc.). Leaves a hydrophobic film (beading effect) that significantly slows down re-soiling. Perfectly removes all types of organic and mineral dirt. Environmentally friendly.

WORKING SOLUTION / HOW TO USE:

GLASS QUARTZ GT (Ready to use)
Use undiluted. Apply 1-2 sprays per 1m2 of surface. Wipe and polish with a clean cotton or microfibre cloth.
Caution: Do not use it on hot surfaces. Use of a second polishing cloth significantly improves the visual effect and the quality of the hydrophobic coating.

1L - SS007A001

GLASS QUARTZ (Concentrate)
For heavy soiling 1-1.5%. Daily care 0.5%.
• Prepare a working solution. Use the scrubber + squeegee or spray + squeegee method. It is best to use a long fibre sleeve. Thoroughly collect the dirt with the scraper that has a rubber insert. Repeat the procedure if necessary.
In the case of very stubborn dirt, we recommend using a sponge.
• Do not work in full sunlight.

WC-SANI®

CONCENTRATE, CLEANING AND DEEP CLEANING OF TOILET BOWLS AND SANITARY APPLIANCES.

Acidic gel for washing and deep cleaning of sanitary surfaces. Removes dirt of mineral origin (lime stone and rust deposits, soap deposits, urine stains). Adheres well to vertical surfaces. Leaves a characteristic, antiseptic smell. Gives shine, does not damage the cleaned surface. Recommended for toilets that are used frequently especially in high footfall areas. Contains phosphoric and sulfamic acid.

WORKING SOLUTION / HOW TO USE:

- manual washing: 1-10%
- cleaning (rust removal): concentrate- 100%
- floors: 2%
- sprayer: 1-2%
- rinse with clean water and wipe dry.

#tenziacademy

Acidic products for hygiene of sanitary facilities mainly remove mineral dirt: scale, rust and water stains. Their diversity is mainly the result of using various active ingredients. For strong products designed for deep cleaning, it can be ie. hydrochloric acid, phosphoric acid or sulfamic acid. Daily care is usually done with products based on organic acids.

65 hygiene line

LEDER CLEAN

CONCENTRATE. DEEP CLEANING OF PATENT AND GRAIN LEATHER SURFACES.

Product for deep cleaning of heavily soiled leather surfaces. Removes old and current organic dirt. Safe for the cleaned leather, it slows down the process re-soiling and leaves a long-lasting, fresh fragrance. Recommended for upholstery, furniture, clothing, footwear made of natural and artificial leather.

WORKING SOLUTION / HOW TO USE:

- prepare a 10% working solution and apply to the surface with a natural horsehair brush, spread thoroughly on the surface to be cleaned.
- wait about 15-20 sec. and then gently scour
- collect dirt with a microfibre cloth, rinsed with clean water;
- wipe the surface dry.

Note: Do not use for suede, nubuck and oiled leather

600ml - WW077B600

66 hygiene line

LEDER CARE

READY TO USE, DAILY CLEANING AND MAINTENANCE.

Product for ongoing care and maintenance of natural and artificial leather. It refreshes the leather and prevents it from drying and cracking. Brings the color to life, makes it elastic and protects from negligent external factors such as UV rays, humidity and temperature, thus prolonging and maintaining the leather's good condition. Recommended for varnished leather with permanent color. Attention! Do not use for nubuck, suede and oiled leather.

WORKING SOLUTION / HOW TO USE:

- use undiluted;
- spray the product onto a microfibre cloth and wipe the surface
- let it dry;
- repeat the operation if necessary;
- can be used after chemical washing or cleaning

600ml - WW054B600

67 hygiene line

LEDER CREAM

READY TO USE, LEATHER PROTECTION AND PROOFING.

Cream for proofing and care of grain or varnished leather. It prevents the leather from drying and cracking, preserving its natural look. Gives a matt finish to the leather. Note: Not suitable for nubuck, suede or oiled leather.

WORKING SOLUTION / HOW TO USE:

- apply with a brush or a sponge to the entire surface of leather;
- let it dry for about 1 hour;
- repeat the process if necessary.

Attention! Can be used after chemical washing or cleaning

600ml - WW055B600

68 hygiene line

STEEL DEE

READY TO USE, STAINLESS STEEL DEGREASER.

Product for degreasing of stainless steel surfaces and appliances. Quickly and effectively removes residues of preservatives, finger marks, oil and grease. Recommended for all stainless steel appliances or matte and glossy surfaces: kitchen furniture, kitchen hoods, refrigerators, sinks, tables, cabinets, ovens, microwaves, elevator cabins, frames and others.

WORKING SOLUTION / HOW TO USE:

- Use undiluted
- Spray evenly onto the dirty surface;
- Scrub with a soft cloth or sponge, then rinse with water;
- Repeat the process in case of heavy soiling
- Surfaces that come in contact with food must be rinsed thoroughly with running water

600ml - WW079B600

STEEL SHINE

READY TO USE, MAINTENANCE OF BRUSHED STAINLESS STEEL.

A maintenance product for stainless steel elements, non-ferrous metals and their alloys with a brushed and semi-matt structure. It has excellent antistatic properties. Does not leave greasy stains. Gives shine and has a pleasant smell. Recommended for outdoor as well indoor use. Suitable for elevators, balustrades, window sills, door handles, cornices, platforms, protective strips, etc. as well as stainless steel furniture and appliances.

WORKING SOLUTION / HOW TO USE:

- evenly spread with a microfibre cloth and polish until dry.

Note: Do not use for surfaces that have contact with food.

600ml - WW081B600

70 hygiene line

STEEL STRONG

READY TO USE, REMOVAL OF MINERAL STAINS FROM STAINLESS STEEL.

Product for removal of hard water deposits and rust blooms from surfaces and equipment made of stainless steel. Perfect for sinks, plates, panels, decorative elements, window sills, kitchen hoods and tables. It has a neutral smell.

WORKING SOLUTION / HOW TO USE:

- apply onto the surface;
- wait 1-2 minutes;
- scrub with a sponge or a cloth;
- rinse with water;
- Surfaces that come in contact with food must be rinsed thoroughly with running water

600ml - WW078B600

71 hygiene line

INW-10

READY TO USE, MAINTENANCE OF MATT AND GLOSSY STAINLESS STEEL.

A quick-drying agent for maintenance of matt and glossy stainless steel, based on alcohol. Removes fingerprints and light greasy dirt. Recommended for outdoor structures, freezers, refrigerators, ventilation hoods, kitchen furniture, elevator cabins and interior fittings. Thanks to its composition it does not require polishing. Dermatologically tested, PZH Certified.

WORKING SOLUTION / HOW TO USE:

- apply directly to the surface
- evenly distribute with a microfibre cloth.

600ml - WW087B600

64 hygiene line

LEDER CLEAN GT

READY TO USE, CLEANING OF VARNISHED GRAIN LEATHER PRODUCTS.

Product for deep cleaning of heavily soiled leather surfaces. Removes old and current organic dirt. Safe for the cleaned leather, it slows down the process re-soiling and leaves a long-lasting, fresh fragrance. Recommended for upholstery, furniture, clothing, footwear made of natural and artificial leather.

WORKING SOLUTION / HOW TO USE:

- spray the product onto a horsehair brush and spread thoroughly on the surface to be cleaned.
- wait about 15-20 sec. and then gently scour
- collect dirt with a microfibre cloth, rinsed with clean water;
- wipe the surface dry.

Note: Do not use for suede, nubuck and oiled leather

SL - PP012A005

74 hygiene line

BLOCK PAVEMENT CLEANER 1

CONCENTRATE, REMOVAL OF PETRO-
LEUM BASED DIRT - DEEP CLEANING.

High foaming, degreasing product for thorough
cleaning of paving blocks. Recommended for heavily
polluted surfaces in workshops, production halls,
petrol stations, parking lots, garages, etc. Product
comes as a concentrated heterogeneous solution.

WORKING SOLUTION / HOW TO USE:

- Mix thoroughly before use:
- Use as a 5-10% working solution (max 30%).
 - Apply to the dirty surface with a sprayer
or a foaming lance;
 - Leave for 5-15 minutes, then wash it off hot water
(70-80 °C) under high pressure;
 - After cleaning, neutralize (rinse) the surface
with hot water.

TL - DS007A001
SL - DS007A005

73 hygiene line

SOLAR PANELS

CONCENTRATE. CLEANING
AND PROTECTION OF SOLAR PANELS.

Concentrated product for cleaning and protection
of solar panels. Creates a protective hydrophobic
coating which slows down the re-soiling process.
Biodegradable. 100% solar transmittance.

WORKING SOLUTION / HOW TO USE:

- thorough cleaning - 1%
- frequent washing - 0.5%
- apply the solution with a garden sprinkler, after 30s
rinse with a high pressure cleaner;
- Note: do not carry out the process in full sunlight
during warm summer months.

TL - TT066A001
SL - TT066A005

BLOCK PAVEMENT CLEANER 2

CONCENTRATE. REMOVAL OF LIGHT
PETROLEUM BASED DIRT.

Low-foaming, alkaline agent for cleaning of con-
crete surfaces from petroleum derived dirt such
as lubricants, oils, fuels, etc. Recommended for
removal of surface contamination within workshops,
underground garages, production halls, logistics
centers, communication routes etc.

WORKING SOLUTION / HOW TO USE:

- Use the product as a 2-5% working solution.
- apply the solution to the surface and leave it
for approximately 5 minutes;
 - scrub with a single-disc machine or a scrubber;
 - for small areas, a hard brush or a mop are suitable;
 - neutralize through rinsing with running water;
 - for frequent cleaning, use a 1-2% working solution

TL - DS008A001

- operating time min. 12 hours at 20°C
- rinse the surface with clean water, preferably under high
pressure or scrub with a brush;

TL - TT083A001

TOPEFEKT MOSS (Concentrate)

- prepare a working solution of at least 8-10%;
- operating time min. 12 hours at 20°C
- wash the surface with clean water, preferably under high
pressure or scrub with a brush;
- preventatively use a 1-2% working solution;
- apply with a sprayer.

TL - TT024A001
SL - TT024A005

#tenziacademy

Outdoor areas in addition to cleaning
with alkaline agents require the use of bio-
cidal products. Such products usually work
on their own. They are applied on a dry day,
usually a day before scheduled deep cleaning
with alkaline products. Selection of the right
working solution and cleaning method (e.g.
a brush, high pressure washer and water
temperature) depends on the degree of soiling
and the location of the surface to be cleaned.

82 hygiene line

DRAIN CLEANER

READY TO USE. UNCLOGGING OF SIPHONES AND DRAINS (GEL)

Agent for unclogging pipes. Perfectly penetrates sink drains, pipes and floor drains in the kitchen and toilet. It dissolves organic dirt. Has no detrimental side effects on the cleaned surfaces. Does not catalyze putrefactive processes during operation.

WORKING SOLUTION / HOW TO USE:

- use undiluted;
- pour the agent into the sink drain (approx 100ml);
- wait 15 minutes;
- rinse the sink well with hot water;
- in case of stubborn dirt, repeat the operation.

1L - TT047A001

83 hygiene line

COPPER CLEANER +

READY TO USE. CLEANING OF COPPER AND ITS ALLOYS.

Agent for cleaning of non-ferrous metals and their alloys (copper, brass, bronze). Removes operational and atmospheric dirt, streaks, sediments, stains of mineral origin. Provides color contrast to the cleaned surface. It slows down the oxidation process. Safe for cleaned surfaces.

WORKING SOLUTION / HOW TO USE:

- apply a small amount of the product onto the surface;
- leave for 1 to 2 minutes, scrub or wipe with a sponge or a cloth;
- rinse thoroughly with water;
- wipe and polish until dry.

600ml - WW074B600

TENZI BOTTLE FOR WORKING SOLUTIONS - 1L

The key part of Tenzi's offer are concentrated products in large capacities, as their logistics is the most economical. However, end users, especially in the HoReCa industry, need handy packaging with ready-made working solutions inside for frequent use. To match their needs, we have created a reusable bottle with a universal imprint that allows them to clearly label it according to the contents and the application of the working solution inside.
